

**(403) 948-0954**

**OFFICE HOURS:**

Monday 9:00am-5:00pm

Tuesday-Thursday 9:00am-4:00pm

Friday 9:00am-12:00pm

We are currently accepting urgent patient care from both current and new patients. This includes repairs, adjustments from sore spots, emergency relines and replacement of emergency lost dentures that without would require further medical attention.

**Upon arrival to the clinic, the patient should:**

- Remain in your vehicle and call the clinic to let us know of your arrival. When an operator or treatment room is ready you may enter the clinic and follow what is outlined below. This is to minimize in person contact as much as possible.
- Perform hand hygiene
- Complete patient screening form
- You will be given a consent form to read and will have an opportunity to ask questions of your provider before signing it.
- You will be escorted to the operator by a PPE-clad staff member (don't worry PPE must be changed between contact with different patients).
